AN INVITATION TO ATTEND

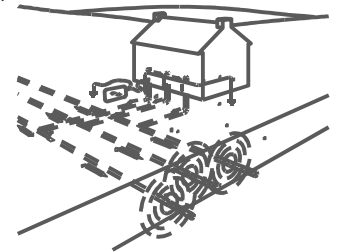

February 2015

EECOL Electric & Radiodetection Underground Utilities Locate Systems will be conducting **"The Fundamentals of Underground Utilities, Cable and Pipe Locating Workshop"** immediately following the free industry-led Contractor Breakfasts.

You will find the session informative and relevant to your organization. The workshop covers all the basic principles and theory of underground utility locating, will examine advanced locating techniques, and discuss today's project site situations and problems faced by locating staff. The workshop is generic; the information is for all makes and models of locating equipment; it covers a wide range of industries, utilities & infrastructure.

Seminar Topics Include:

- ✓ Explanation of magnetic fields.
- ✓ Explanation of the types of locating methods.
- ✓ Methods of applying signal to target lines.
- ✓ Grounding, Locating, Frequencies & other related topics.
- ✓ General, Advanced & Practical locating techniques.
- ✓ The session is informal, field related questions are encouraged & discussed

Date , Time & Location: Tuesday March 31 –Burnaby-

-Operating Engineers Trades Center- 4333 Ledger Ave.

Session starts immediately following the breakfast & ends @noon

- The fee to attend is complimentary.
- Mid-morning coffee & snack break provided.
- "How to Locate" take away review binders materials included.
- Environmental Operators Certification Program, course # 7348, 0.6 CEU's available

To register on line, please go to our web site; www.eecol.com, click on "training" (bottom, middle of screen), you will be taken to our "training" site, then ½ way down the screen, left hand side you will see "Utilities Locate Workshop", move your mouse to the right , click on "register", complete the requested information, and click "register me".

Consider yourself registered.

Or should you require further information, please contact Brian Kidwell at;

Office (604) 455- 8160 ext 2191
