

# STEVE HOWE

In 2006, while working as a senior operator faller, Steve Howe suffered what none of us ever want to experience — a devastating, near-fatal injury. Steve appreciates now that he had become complacent doing his specific tasks, and didn't speak up about conditions.

Now, as part of the Kiewit Corporate Safety team, Steve tours projects and shares his message of survival, emphasizing the importance of working safely. Steve's primary message: Working safely is not just about you, it's about staying safe for everyone in your life that cares about you.

***Hear Steve's story firsthand,  
where he'll cover the importance of:***

- 1. Identifying your "comfortable moments"**
- 2. Never taking shortcuts**
- 3. Understanding why your team wants to work safe and realizing you can refuse to do unsafe work**
- 4. Never deviating from the plan**
- 5. Learning from Steve's mistakes and decisions**
